RF-3082-AT001
MUOS Foldable At-The-Pause Antenna

The L3Harris RF-3082-AT001 next-generation crossed Yagi satellite antenna provides both full duplex MUOS and legacy UHF SATCOM. Designed for both rapid deployment and high-gain radiation patterns, the antenna covers the 240 to 380 MHz frequency range. It folds up and easily fits into a lightweight, small-volume carry bag.
