

# UNITED KINGDOM

## COVID-19 Country Tear Sheet

The health and safety of our employees at L3Harris is our highest priority. We want to ensure you are equipped with the latest information in real-time. Please continue to check [Nexus](#) frequently for COVID-19 response updates.

### **In general, the following is the current guidance for employees in the United Kingdom:**

- If you are feeling unwell in general, do not come to work. Medical evidence is not required for the first seven days of illness. Use the paid time off benefits available to you to rest, recuperate, and call ahead to your GP's office to see if an appointment is necessary.
- If you experience any symptoms of COVID-19 including a fever and continuous cough, OR you feel you have reason to believe you have come into contact with someone diagnosed with, or seeking confirmation of COVID-19 infection exit the workplace immediately, and notify both your HR Business Partner, as well as your segment COVID-19 Human Resources Response Team member noted below. You should also seek the advice of a GP as to whether a COVID-19 test is necessary.
- If you have traveled to or through a restricted country as outlined on [Nexus](#), you will be required to self-isolate at home for a period of 14 days. If you are feeling well and can work remotely, you will be asked to do so to the extent your job responsibilities lend themselves to remote work. If you are unable to work from home, please speak with your HR Business Partner with respect to the most appropriate paid time off code/process to use during self-isolation.
- If you are ill and recovering from home, and you feel you are unable to cope with your symptoms, your condition gets worse, or doesn't improve within seven days, contact your GP (but do not arrive at their office without calling ahead) or the [NHS 111 Online Coronavirus Service](#).
- Frequently visit the [NHS COVID-19 website](#) for the latest information about the virus.
- Read the U.K. Government's [guidance for employees](#).
