

WEAPON HANDLING SYSTEMS

Tailored Naval Solutions

L3Harris designs and manufactures weapon handling systems (WHS) for a wide variety of weapons used on-board naval vessels.

FULL RANGE OF CAPABILITIES IN ONE, CUSTOMIZED PRODUCT

Tailored to customer needs, our WHS can meet the most exacting requirements and can be operated manually, remotely or automatically. Operational capabilities are extended up to sea state 5.

Safety is one of our focal points in designing these products to allow personnel to operate efficiently and without risks. L3Harris' weapon handling systems are operational on-board ships of many navies around the world, to include Italy, France, Australia and Denmark.

SHOCK AND VIBRATION ACCORDING TO:

- > MIL-S-901
- > MIL-S-167
- > Customer's standards

MAIN FEATURES AND BENEFITS

- > Weapons continuously restrained during all phases of the operations
- > Reduced personnel and operations time
- > Fail-safe equipment
- > Intrinsic safety and stability for weapons and operators
- > Fully automatic, with both remote and manual control options available
- > Operationally tested in harsh environmental conditions
- > Easily customizable modular design
- > Battery-powered weapon trolley available

CHARACTERISTICS AND MAIN STANDARDS

Available designs for:

- > NATO-compatible lightweight torpedoes; e.g., MK46, MK54 and MU90, etc.
- > Air-to-surface missiles; e.g., AGM114 Hellfire and Marte MK2, etc.
- > Heavyweight torpedoes
- > Decoy rockets
