MISSION-CRITICAL SOLUTIONS FOR DEFENSE, FEDERAL AND RELIEF RESPONDERS

Public Safety and Professional Communications (PSPC) solutions are built on time-tested, battle-proven L3Harris tactical technologies in use for decades around the world. PSPC devices, applications and services deliver secure, interoperable and networked connectivity to enhance operational success here in the U.S. and internationally.

DEPARTMENT OF DEFENSE

Rugged, LTE Land Mobile Radios, Situational Awareness applications and integrated network systems support secure, multi-agency intelligence sharing across land, sea and air.

FEDERAL AGENCIES

Converged LTE portables and mobiles, cybersecurity solutions, infrastructure and terminal services support multi-agency interoperability wherever federal agents are called to serve.

DISASTER RELIEF

LTE Land Mobile Radios, dispatch innovations and leading-edge Situational Awareness applications give disaster relief forces, medical teams and First Responders the tools they need to make rapid, right decisions.

PROVEN COMMUNICATION TECHNOLOGIES

Engineered for Today's Toughest Challenges

COVERAGE

Resilient, reliable solutions provide extended coverage for operations conducted in congested urban areas or across great distances.

INTEROPERABILITY

Proven P25 technologies ensure seamless communications between multiple agencies.

CYBERSECURITY

Military-grade encryption and security protocols protect networks from evolving threats.

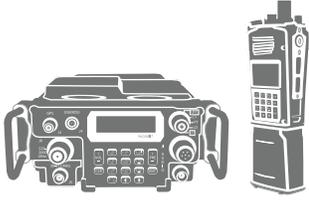

SITUATIONAL AWARENESS

Customizable, data-rich solutions support rapid response through real-time intelligence sharing.

FAST. FORWARD.

DID YOU KNOW?

More than **1 million tactical radios** delivered to military personnel around the world

L3Harris navigation technology is on every U.S. GPS satellite with **800 years cumulative failure-free on-orbit operations**

Developed the WESCAM MX Series sensors which are the “eyes” of **over 360 different types of platforms across air, land and sea domains**

L3Harris employs **over 20,000 scientists and engineers in more than 350 locations**

L3Harris has been **awarded over 3,000 patents**

Engineered the industry’s FIRST converged LTE Land Mobile Radio (LMR), P25-based Push-To-Talk application over broadband and LMR network core with built-in levels of redundancy

60,000 U.S. agents have XL-200P portables with reliable broadband connectivity to enhance their mission of protecting the nation’s borders

Deployed 30,000+ radios to Air and Army National Guard to respond to national disasters and domestic operations in 54 states and U.S. territories

15,000+ radios deployed worldwide by the U.S. Department of State for diplomatic security

Maintained 99.96% communications uptime for Florida First Responders during a 10-year span of 15 hurricanes and 10 tropical storms
