L3HARRIS TECHNOLOGIES
NYSE: LHX

L3Harris Technologies is an agile global aerospace and defense technology innovator, delivering end-to-end solutions that meet customers’ mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains. L3Harris has approximately $18 billion in annual revenue and 48,000 employees, with customers in more than 100 countries.

BUSINESS SEGMENTS

> Integrated Mission Systems – Includes intelligence, surveillance and reconnaissance; advanced electro optical and infrared solutions; and maritime power and navigation

> Space and Airborne Systems – Includes space payloads, sensors and full-mission solutions; classified intelligence and cyber defense; avionics; and electronic warfare

> Communication Systems – Includes tactical communications; broadband communications; night vision; and public safety

> Aviation Systems – Includes defense aviation products; security, detection and other commercial aviation products; air traffic management; and commercial and military pilot training

~$18 billion
ANNUAL REVENUE

> ~48,000 employees
> ~19,000 engineers and scientists
> Customers in 100+ countries
> 350+ locations worldwide
L3Harris is a leader for open systems processing on tactical aircraft and has delivered more than 1 million components for the F-35.

75,000+ training hours provided and 1,200 aircrew students trained annually on Predator and Reaper Mission Aircrew Training System (PMATS).

Pioneered the high-energy beam director for every major U.S. Directed Energy system.

Developed the WESCAM MX Series sensors which are the “eyes” of over 360 different types of platforms across the air, land and sea domains.

L3Harris employs ~19,000 scientists and engineers in more than 350 locations.

L3Harris has been awarded over 3,000 patents.

L3Harris navigation technology is on every U.S. GPS satellite with 800 years failure-free on-orbit operations.

With nearly 100 unfurlable mesh reflectors on orbit, L3Harris is the world leader in deployable mesh reflectors.

More than 1 million hours of helicopter simulation training provided to the U.S. Army’s Flight School XXI program.

Delivered more than 300 autonomous unmanned undersea vehicles (UUVs) to our customers, expanding the reach and mission capability of remotely operated vehicles.

More than 1 million tactical radios delivered to military personnel around the world.
