# YOU PROTECT THE WORLD'S CONNECTIONS. WE PROTECT YOURS.

## Critical Communications for Transportation

### **KEEP YOUR BUSINESS AND PASSENGERS MOVING AHEAD, SAFELY AND EFFICIENTLY**

Our best-in-class solutions are built on the same battle-proven L3Harris tactical technologies in use for decades around the world. We are a leading supplier of radios and networked systems for transportation, federal, utility, commercial and health care markets all around the world and virtually every corner of North America.

### **CUSTOMER-BASED, CONTINUOUS INNOVATION**

Our 80-year legacy is built on listening to what customers need and then delivering resilient, unflinching connectivity. No limits. No excuses. Robust voice, video and data keeps communications running smoothly and the safety of your workers and passengers at the forefront of all operations.

### **Ironclad configurations to keep your systems safe from threats**

When it comes to security, settling isn't an option. Our leading-edge technology protects your network and devices through military-grade encryption and security protocols.

### **On-the-move connectivity for businesses always on the go**

LTE portable and mobile radios with exceptional audio quality and built in GPS, Wi-Fi® and Bluetooth® extend your coverage to minimize any dead zones or inaudible conditions.

### **Hard-working solutions that make communicating in and out of network easier**

We champion open networks because they give you so much more flexibility and control of your business. Our P25 devices and systems will seamlessly connect to other agencies, smoothly integrate with your existing infrastructure and give you room to add capabilities in the future.

### **SECURING THE WORLD AROUND US**

L3Harris is an agile global aerospace and defense technology innovator, delivering end-to-end solutions to meet customers' mission-critical needs. The company provides advanced defense and commercial technologies across air, land, sea, space and cyber domains.

- > \$18 billion in annual revenue
- > 48,000 employees including 19,000 engineers and scientists
- > 350+ locations and customers in 100+ countries
- > Delivered more than 1 million tactical radios worldwide
