

L3HARRIS™
FAST. FORWARD.

ALL IN ON YOUR MISSION TODAY AND TOMORROW

Introducing Two47™
Critical comms for an ever-changing world

IMAGINE A FUTURE WHERE...

POLICE maintain pursuit across state lines without losing comms

FIREFIGHTERS broadcast real-time vitals during calls

LINE WORKERS stream live video to dispatch centers

TRANSIT DISPATCHERS optimize fleet operations using advanced telematics

Two47 is bringing you what's next in critical comms

SECURITY YOU CAN COUNT ON

There's nothing more important to us than keeping your network safe. We provide built-in redundancy and cybersecurity to keep your systems stable and protected. And with regular updates and remediations, we can keep your system secure even as new cybersecurity threats emerge.

INNOVATION ON YOUR TERMS

We listened to your hopes and concerns and built Two47 from the ground up to be:

Open

Engineered for interoperability and access

Adaptable

Designed to be configured to your needs and budget

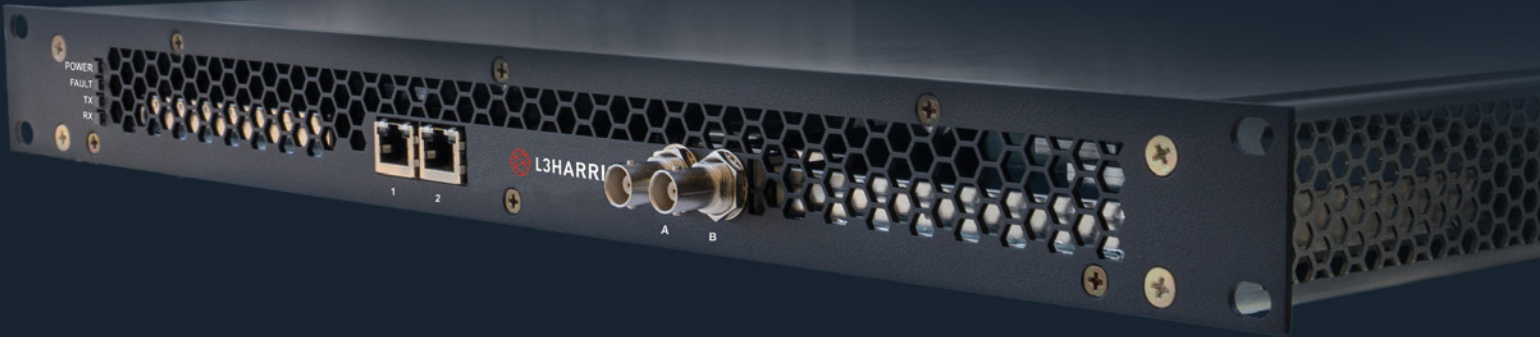

Unstoppable

Fortified for unflinching reliability and security

HELPING YOU MEET THE MOMENT

Access tomorrow's technology today. Two47 seamlessly integrates with your existing systems while giving you the flexibility to build the solution that's right for you.

Two47 Base Station

TWO47 BASE STATION

A BASE STATION THAT WON'T BOX YOU IN

Take your communications and remote management capabilities to the next level with the Two47 Base Station. Communicate with any P25 device in a compact package that's rugged, resilient, and protected around the clock.

- > Software-defined and cloud enabled for effortless, from-anywhere management and updates
- > Multiple points of redundancy for reliable communication with dispatch
- > Built to the most stringent cybersecurity standards for added security

VIDA CORE

BUILD THE NETWORK YOUR MISSION DEMANDS

Built on open standards-based architecture to give you a greater choice of carriers, devices, and applications, the VIDA Core lets you deliver your critical communications with unflinching reliability anytime, anywhere.

- > Fully-virtualized to keep your system future-ready and support painless updates and system expansion
- > Leverage LMR, LTE, and Wi-Fi to enhance your communication footprint
- > Real-time tracking of personnel, vehicles and other mobile assets provides a clear view of your resources and lets you know if your unit has an emergency

TWO47 ENTERPRISE NETWORK MANAGER

360-DEGREE VISIBILITY AT YOUR FINGERTIPS

Support your mission with one application that can monitor your entire network, no matter what you have connected. Two47 Enterprise Network Manager takes open standards to the next level so you can track what matters most to your mission.

- > Create custom dashboards to monitor your network health, across your entire system
- > Supports industry standards (ex: SNMP) and integrates with commercial off-the-shelf technologies to adapt to your needs
- > Visualize components of your system using integrated maps

FAST. FORWARD.

HOW CAN WE SUPPORT YOUR MISSION?

Two47 was designed to meet a wide range of requirements to rise to the demands of your mission. We'll help you discover what the future of your mission-critical comms could look like.
