TWO47 DEVICE MANAGER

Keeps your devices up to date, without tying you down.

Make critical firmware updates without taking your devices offline.

That's one of the advantages of the **Two47™ Device Manager**, but there's even more packed into this solution. You can update your radios and keep devices protected from emerging cyber threats from just about anywhere with a broadband connection, while receiving device status data in real time.

Engineered to give you more choice while reducing total cost of ownership, the Two47 Device Manager is available in several tiers so you can select the best fit for your needs and budget. Like all Two47 solutions, the Two47 Device Manager is...

OPEN

Engineered for interoperability and access, anywhere, any time.

ADAPTABLE

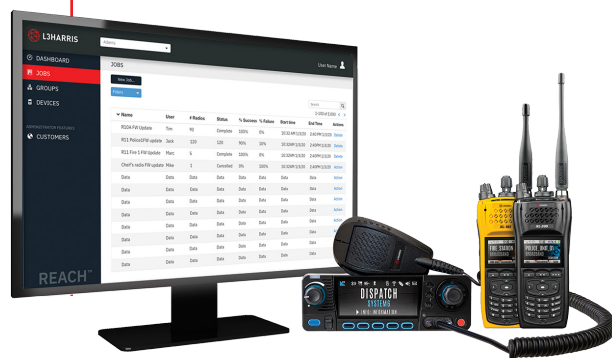

Designed to be configured to your needs and budget.

UNSTOPPABLE

Fortified for unflinching reliability and security.

Open standards for flexible, best-in-breed features:

- > Manage and update your devices in real time, from anywhere
- > Tiered support offerings to best fit your needs and budget
- > Make critical device firmware updates without taking physical assets out of service
- > Available over any broadband connection
