

PREMIER PROPULSION PROVIDER FOR THE U.S. ARMY

Leading Developer and Producer of Advanced Energetics

For more than 80 years, we've supported the Army in its mission to be the most lethal and capable ground combat force in history.

POWERING DEFENSE TO PROTECT WHAT WE VALUE MOST

Aerojet Rocketdyne provides innovative power and propulsion to help our nation, warfighters and allies across multiple domains – sea, air, land and space. We provide a broad range of propulsion including solid, liquid, air-breathing and electric.

Our reliable propulsion is a key enabler for both current and future defense missions. By developing advanced technology and employing modern manufacturing techniques, Aerojet Rocketdyne products continue to enhance the performance and efficiency of the U.S. Army's strategic and tactical missile programs. This has been proven in multiple conflicts, across a broad spectrum of operations, and in various locations around the world.

Our team is committed to serving the needs of Soldiers and powering our nation's defense.
