FAST. FORWARD.

TWO47™ SECURITY OPERATIONS CENTER SERVICES

All In with Two47™ SOC Services

When the stakes are high, proactive cybersecurity isn't just an option — it's a necessity. That's why Two47 Security Operations Center (SOC) Services offers CyberSight™, a comprehensive, managed cybersecurity monitoring solution powered by our Mission Critical Alliance (MCA) partner, SecuLore. By combining SecuLore's expert in-house SOC team with the robust capabilities of L3Harris network and cybersecurity engineers, CyberSight delivers tailored, cutting-edge protection exclusively for you.

Why Choose CyberSight™?

Safeguard your critical networks with experts who design and implement your mission critical network.

Proactive Threat Detection

Identify vulnerabilities before they compromise your network.

Round-the-Clock Protection

A US-based SOC team monitors your networks 24/7/365.

Tailored Solutions

Configurable tools to meet unique mission requirements.

Actionable Insights

Receive detailed reports and forensic analyses to inform smarter strategies.

Dedicated Expertise

Work with security analysts who understand your specific challenges.

Why Partner with Two47™ Monitoring Services?

> **Industry Leadership:** Active contributor to public safety standards, including APCO, NENA and DHS initiatives.

> **Mission-Critical Security:** Relentlessly focused on defending public safety and defense networks.

> **AI-Powered Precision:** Combines human expertise with cutting-edge AI for unmatched accuracy and speed.

> **Seamless Integration:** Deploys agentless monitoring, ensuring effortless implementation and efficiency.

L3Harris.com

Your Comprehensive Cybersecurity Solution

Explore how CyberSight™ fortifies your infrastructure before, during and after a potential cyber-attack.

BEFORE	DURING	AFTER
Risk Mitigation: Through regular deep packet inspection, we pinpoint vulnerabilities, strengthen your defense-in-depth strategy and ensure operational continuity with prioritized weekly or monthly reports.	**Rapid Incident Response and Mitigation:** When an attack is detected, our SOC team springs into action with real-time containment guided mitigation efforts.	**Post-Threat Analysis and Support:** Learn how the attack happened and prevent future intrusions with a complete forensic review.
> Dedicated SOC analyst aligned to your needs. > Passive, non-agent-based monitoring for full network visibility. > Vulnerability summaries to prioritize and remediate risks.	> Smart, customized alerts for actionable responses. > Advanced AI and machine learning to reduce false positives. > Real-time guidance to reduce attack impact.	> Comprehensive post-incident breakdown. > Forensic packet analysis to pinpoint the exact attack vector. > Ongoing advisory support to strengthen your defenses moving forward.

With Two47 SOC Services and CyberSight™, you're not just investing in cybersecurity; you're ensuring the resilience and operational readiness of the services your teams depend on.

Act Now to Secure Your Network

Don't wait for an incident to highlight your vulnerabilities. Secure your critical infrastructure and experience the CyberSight™ difference today.
