

**L3HARRIS®**  
FAST. FORWARD.

## **XL VIRTUAL™**

Your Direct Connection to Public Safety

## FAST, RELIABLE TECHNOLOGY FOR URGENT COMMUNICATIONS

As an education or emergency management professional, your role is vital to helping students learn, grow and achieve all they can in a world of opportunity. In addition to this tremendous responsibility, you also must remain vigilant about the safety of your students and staff.

### **INSTANT, ONE-TAP SAFETY FOR EVERY CLASSROOM**

With XL Virtual™, educators gain a low-cost, easy-to-deploy Push-To-Talk (PTT) app on their own smartphones—connecting instantly with colleagues and first responders at the push of a button.

## XL VIRTUAL™—YOUR SECURE, DIRECT CONNECTION TO FIRST RESPONDERS

XL Virtual, formally known as BeOn®, is a Push-To-Talk mobile application for smartphones and PCs that can quickly connect your staff to other members of your team while on school grounds or even off-site during field trips and extracurricular activities. In the event of an emergency, XL Virtual can provide your staff with a fast, direct connection to first responders to request urgent assistance.

- > Works wherever you have a cellular data signal or Wi-Fi®—overcoming in-building communication challenges many schools and universities often face
- > Delivers encrypted text, voice or group communications
- > Built-in GPS quickly locates teachers and staff
- > No additional equipment needed—staff members connect using their Apple® or Android™ smartphone
- > Easy to use and requires minimal training

## FITS AFFORDABLY INTO CONSTRAINED ANNUAL BUDGETS

Teachers and staff can safely add the XL Virtual app to their assigned or personal smartphone. No need to build a radio system or purchase additional equipment.

## L3HARRIS XL RADIOS FOR EVEN GREATER CONNECTIVITY

For staff who need enhanced functionality, consider the L3Harris XL Series of radios. Trusted by first responders around the world, the XL Converge™ Series provides more ways to connect, including integration with XL Virtual. Users get loud, clear audio, a slim, easy-to-handle design and outstanding features:

- > Operating on VHF, UHF, 700/800 MHz and 900 MHz frequencies, the XL Series merges LMR voice with voice and data over Wi-Fi, Bluetooth® and Cellular/LTE
- > Connect to your school's Wi-Fi to extend coverage into basements and classrooms where traditional radios fall short
- > 10-hour battery life
- > Secure, encrypted communications

Whether you're coordinating across campus or responding to an emergency, XL radios ensure your team stays connected.
