

XL VIRTUAL™ APPLICATION

Push-To-Talk Power Beyond Regional Coverage

Experience Public Safety's most advanced P25 Push-To-Talk over Cellular application

Our breakthrough XL Virtual mobile application transforms your everyday device into a powerful communications tool. Use XL Virtual as a stand-alone solution to connect teams or as an extension to your P25 LMR network. XL Virtual delivers industry-leading capabilities to existing users' smartphones, tablets and PCs. Essential P25 features like group calls, end-to-end encryption and emergency calls, combine with advanced features like geographic mapping for superior situational awareness. Just like the rest of our XL Radios, the XL Virtual mobile app is:

EASY TO USE

The XL Virtual's intuitive user interface design allows customers to rapidly deploy the solution to its users.

POINT-TO-POINT SECURE

P25 standard AES encryption keeps your communications safe from threats.

BACKED WITH ALL-IN, 24/7 SUPPORT

Deploy XL Virtual quickly with self-installation or with the assistance of the L3Harris team. Available technical assistance and software upgrades keep the XL Virtual always up to date.

Fast, intuitive access to key features:

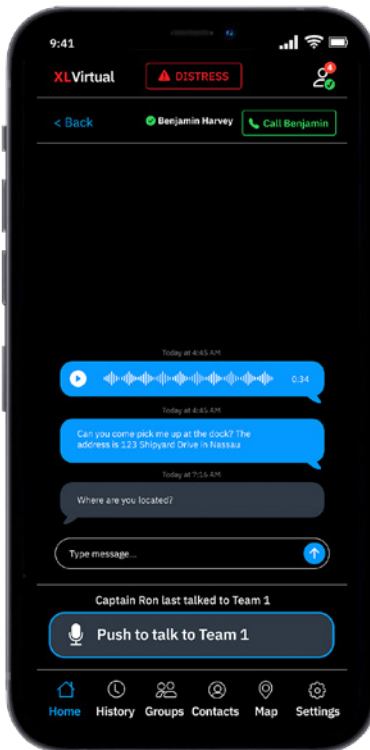

- > Uses Wi-Fi and LTE regardless of cellular provider
- > Available for Android™ and Apple® iOS devices*
- > End-to-end voice and data encryption
- > Locate and track availability of in-field staff
- > Voice and data sharing at the push of a button
- > Instant replay of missed calls and automatic call logging
- > Announcement group calls
- > Priority / preemptive support
- > Uses the existing XL Virtual application in your VIDA® Core

*Apple iOS support coming soon.

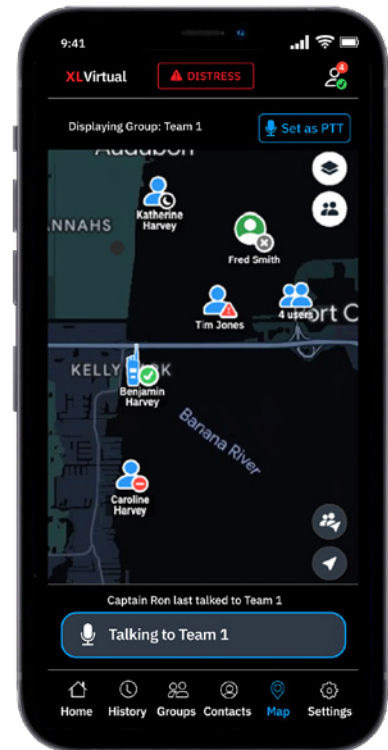

Connect easily and affordably with the most advanced Push-To-Talk over cellular application.

Quickly communicate with groups of users at the touch of a button.

Send critical updates to team members via group text.

Track the location and availability of teams in the field.

Support for Apple iOS coming soon.
