

TRANSITIONING TO XL VIRTUAL™

What to Expect

The XL Virtual™ app is the next evolution of the BeOn® Mobile App, designed to elevate team communication and collaboration.

With a modern, user-friendly interface, XL Virtual retains all the essential features you rely on while adding powerful enhancements. Its capabilities include quick push-to-talk (PTT), secure voice calls and messaging, GPS services and seamless connectivity with XL Series radios. Whether managing routine operations or responding to critical events, XL Virtual is built to meet your needs.

WHAT HAPPENS WHEN YOU UPDATE?

When BeOn updates to XL Virtual™, the transition occurs through the standard app store process (Google Play or Apple's App Store). Post-update, you'll experience the next-generation interface seamlessly integrated with your current setup.

DO YOU NEED TO UPDATE?

While you can continue using the legacy BeOn app, we highly recommend updating to XL Virtual. The older app may encounter compatibility issues with future operating system updates, so upgrading ensures smooth performance and access to all the new features.

Key Features and Improvements:

XL Virtual™ carries forward the trusted functionality of BeOn while introducing exciting new features to enhance your experience:

- > **Completely Redesigned Interface:** Navigate with ease through a sleek, intuitive interface that enhances usability.
- > **Streamlined Talkgroup Management:** Switch talkgroups faster with just two clicks, saving time and effort.
- > **Cross-Platform Consistency:** Enjoy the same smooth experience on both Android and iOS devices.
- > **Multi-Network Capability:** Log into adjacent systems or collaborate across counties with the proper licenses.

Frequently Asked Questions (FAQs)

1. What happens to my user licenses?
