

C-130 SOLUTIONS

Integrated C-130 modernization, missionization and MRO expertise

Our aircraft modification center combines in-depth hangar, dock and line operations with skilled engineering and flight science expertise to bring fully integrated, agile and cost-effective modernization, missionization and MRO (M3) solutions to military, government and commercial customers.

MISSIONIZATION

- > EO/IR surveillance
- > Radar integration
- > Light strike
- > Communication solutions
- > NVIS
- > Self-protection systems
- > Signals intelligence
- > Minotaur system
- > VIP transport

MODERNIZATION

- > Avionics upgrades
- > Modern digital radar weather radar
- > Structural life extension program
- > T-56 3.5 engine modification
- > NP2000 propeller upgrade

- > DC power upgrade
- > Auxiliary Power Unit upgrade
- > Med and casualty evacuation

MRO

- > Generator Control Unit upgrade
- > Aircraft rewiring
- > Programmed depot maintenance
- > Airworthiness directives
- > Service bulletins
- > Center wing box replacement
- > Outer wing replacement and refurbishment
- > Corrosion control and prevention
- > Aircraft paint

KEY BENEFITS

We provide one-stop shop capability for all aircraft types and sizes, with industry-leading capability in:

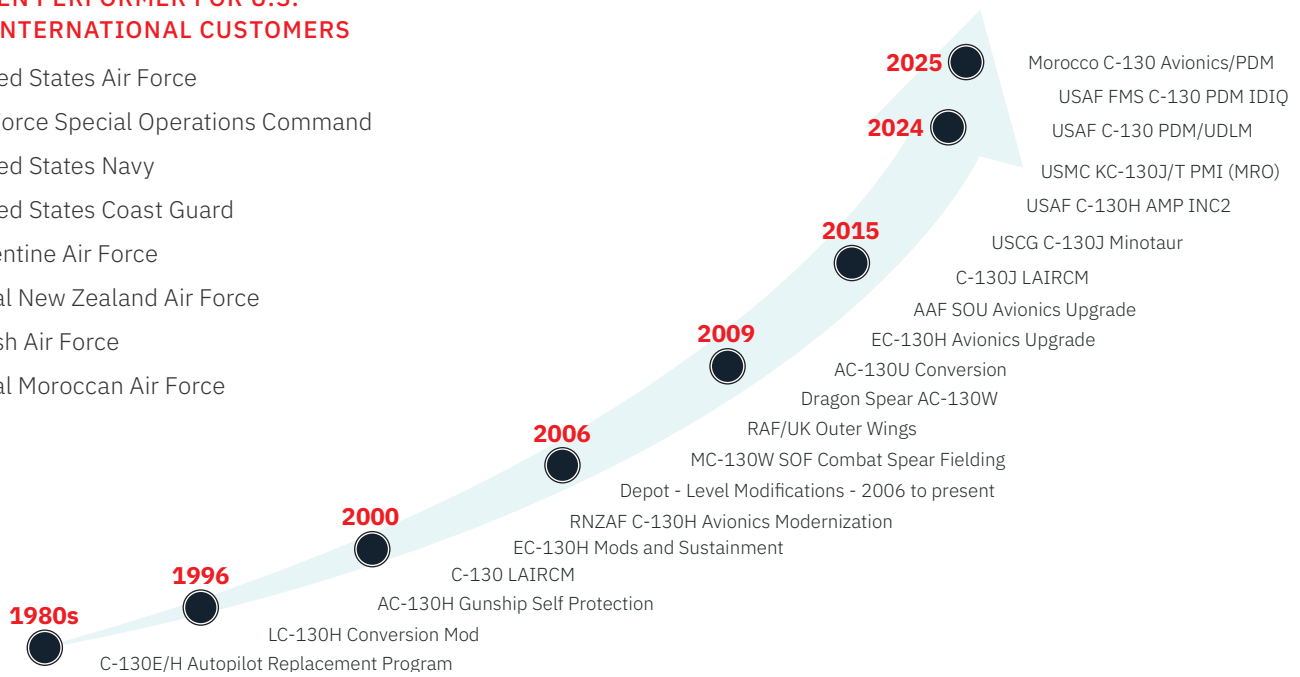

- > Complex aircraft conversions
- > Modernization, ISR and airborne systems missionization
- > Depot fleet maintenance and modification
- > Aircraft paint
- > Highly customized design, integration and certification of mission subsystems and interiors
- > Our center is an FAA/EASA-approved repair station and has FAA Organizational Designation Authorization (ODA) oversight
