

L3HARRIS IN COLORADO

Our L3Harris team in Colorado is at the forefront of our mission to innovate relentlessly and deliver capability with the speed, passion and determination that our customers demand in executing their most challenging missions.

With facilities dedicated to engineering, production and customer support across the state, **we help protect America's space assets** through innovative system development, integration and sustainment.

In **Colorado Springs**, L3Harris provides the U.S. government with a **full spectrum of space control and space domain awareness capabilities** needed to gain, maintain and exploit superiority in space. L3Harris' advanced technologies and sophisticated enterprise ground architectures integrate disparate systems into one efficient, sustainable infrastructure.

L3Harris helps to ensure mission readiness of U.S. Space Force radar and optical systems. We provide ground system operation, maintenance and logistical support for communications systems at **Schriever Space Force Base**. L3Harris also sustains the **U.S. Space Test and Training Range** located at Schriever by delivering live, virtual and constructive training experiences for certified operators of the nation's space superiority tools and assets.

Our company provides **space control depot support** including program management, systems and software engineering, and cyber security for space control systems. We also provide **mission support to global wideband satellite operations** and management sites.

L3HARRIS®
FAST. FORWARD.

In addition to our military and geospatial intelligence solutions, L3Harris' mission expertise strategically positions us to provide value to customers in **civil and commercial space**. In **Centennial**, we provide professional engineering services to United Launch Alliance for vehicle integration and launch support.

In **Loveland**, we conduct airborne testing of our **WESCAM MX™-Series electro-optical/infrared sensor systems** which are used to support intelligence, surveillance, reconnaissance and target acquisition missions from platforms across the air, land and maritime domains. Loveland is also home to a WESCAM Authorized Service Center and product support teams.

Cutting-edge L3Harris technologies are also utilized by many first responders across the state to keep themselves and their fellow Coloradans safe. L3Harris' **resilient radio systems and interoperable devices** with advanced features give first responders a reliable lifeline during critical emergencies.

COLORADO AT A GLANCE:

Major L3Harris Missions

- > Space Control and Space Domain Awareness

Major L3Harris Programs

- > Meadowlands/CCS
- > Eglin Radar, GEODSS
- > NSDC

Major L3Harris Contracts

- > MOSSAIC
- > CMSS

MAKING A DIFFERENCE

L3Harris is proud to be a part of Colorado's flourishing aerospace and defense industry. We're also deeply grateful for the patriotism, dedication and expertise of our **Colorado-based team members** who are providing cutting-edge technologies and services for U.S. and allied warfighters around the world. We're committed to doing our part to ensure that Colorado remains a place where our employees, their families and all our fellow Coloradans can thrive.

As a part of our commitment to help create economic opportunity and improve quality of life in the Colorado communities where we operate, L3Harris:

- > Sponsors men's and women's athletic programs at the U.S. Air Force Academy in Colorado Springs, including the presenting sponsorship of the Falcon Stadium East Club, supporting those studying and training to be future leaders in the U.S. Air Force and U.S. Space Force
- > Prioritizes volunteering in our community, contributing nearly **25K** hours supporting more than **150** organizations **over the last 5 years**
- > Provided a **\$50K** sponsorship to Air & Space Forces Association's StellarXplorers High School Space Challenge for STEM education programs
- > Contributed more than **\$110K** in foundation grants to Colorado organizations and educational institutions in 2025
