

L3HARRIS IN MARYLAND

The L3Harris team in Maryland is at the forefront of our mission to innovate relentlessly and deliver capability with the speed, passion and determination that our customers demand in executing their most challenging missions.

In **Millersville**, L3Harris specializes in the development of telemetry systems for **TB-29** and **TB-34 Towed Array Systems**. Our Towed Array Integrated Product Team (TAIPT) telemetry sets the standard for submarine, surface ship and surveillance towed arrays. The depot support activities for TAIPT components encompass failure analysis, repair and product improvements. Towed array test sets offer TAIPT users a common test environment for in-process, factory, depot and dockside test and checkout procedures. Our next-generation Compact Towed Array telemetry now has become the standard in current-generation towed arrays.

L3HARRIS®
FAST. FORWARD.

L3Harris is one of the world's most trusted providers of military communications and information systems, leading the industry in robust, experience-honed Cryptography Modernization solutions. The software team in **Columbia** develops secure **Crypto Modernization software**, which is the foundational capability to protect tactical networks and the information and devices within them. Additionally, the Columbia hardware team designs, develops and applies **Field Programmable Gate Array (FPGA)** solutions with capabilities spanning across cybersecurity, autonomous vehicles and space systems.

At our site in **Aberdeen**, L3Harris provides on-site support for the Army's high-assurance secure communications systems.

Cutting-edge L3Harris products are also utilized by many of the state's first Responders and essential workers to keep themselves and their fellow Marylanders connected and safe. L3Harris' **resilient and interoperable radio systems** provide reliable communications for several local governments across Maryland.

L3HARRIS PROGRAMS IN MARYLAND

- > Cryptography Modernization
- > Field Programmable Gate Array
- > Resilient Radio Systems for First Responders
- > Telemetry Solutions, Testing and Integration for Towed Arrays
 - TB-29C, TB-34A, TB-37A and TL-29A
- > Towed Array Integrated Product Team (TAIPT) Telemetry

MAKING A DIFFERENCE

L3Harris is proud to be a part of Maryland's flourishing aerospace and defense industry. We're also deeply grateful for the patriotism, dedication and expertise of our Maryland-based team members who are producing cutting-edge technologies for U.S. and allied warfighters around the world. We're committed to doing our part to ensure that Maryland remains a place where our employees, their families and all our fellow Marylanders can thrive.

As a part of our commitment to help create economic opportunity and improve quality of life in the Maryland communities where we operate, L3Harris has:

- > Partnered annually with more than **15 nonprofits** in the state, including the University of Maryland
- > Contributed more than **\$175,000** in foundation grants to Maryland organizations and educational institutions **in 2025**
