L3HARRIS IN NEW YORK

Our L3Harris team in New York is at the forefront of our mission to innovate relentlessly and deliver capability with the speed, passion and determination that our customers demand in executing their most challenging missions.

The company's Jefferson Road Operations Center (JROC) in **Rochester** is one of the world's most advanced manufacturing facilities for **tactical communications** products for military and government customers in the United States and across the globe. These solutions deliver unprecedented situational awareness through high-speed transmission of voice, data and full-motion video.

At other facilities in Rochester, we design, manufacture and integrate **high-resolution imaging systems** for government and commercial satellites as well as ground-based astronomy systems. Since the 1960s, L3Harris employees have played key roles on major NASA programs such as Apollo, Chandra X-Ray Observatory, the James Webb Space Telescope and the Nancy Grace Roman Space Telescope. We provide **satellite communications solutions** to the intelligence community; the U.S. Department of War; civilian agencies at the federal, state and local level; and international customers.

THE TRUSTED DISRUPTOR

L3Harris is the Trusted Disruptor in defense tech. With customers' mission-critical needs always in mind, our employees deliver end-to-end technology solutions connecting the space, air, land, sea and cyber domains in the interest of national security.

MAJOR L3HARRIS PROGRAMS IN NEW YORK

- > Antennas for Military and Commercial Aircraft
- > Electronic Warfare Solutions
- > High-Resolution Imaging Systems
- > Mission-Critical Release Systems for Fighter Aircraft
- > Satellite Communications Solutions
- > Software-Defined, Resilient Communications Systems

In Amityville, L3Harris designs and manufactures **mission-critical airborne carriage and release systems**, and **advanced antenna solutions**, supporting U.S. and allied platforms worldwide, including F-35, F-16, F-15, P-8, MQ-9, KF-21, as well as other major fighter platforms.

Cutting-edge L3Harris technologies are also utilized by many of the state's first responders and essential workers to keep themselves and their fellow New Yorkers connected and safe. L3Harris' **resilient and interoperable radio systems** provide many of New York's police and sheriff's departments, fire departments, transportation authorities, public works agencies, authorities and schools with reliable communications.

Additionally, in 2024 L3Harris received a contract award to upgrade the New York State **Thruway Authority's critical communications infrastructure**, including voice and data connectivity, throughout its 570-mile jurisdiction. The company will deliver Two47™ Base Stations to roughly 40 sites spanning New York City to the western border with Canada, delivering secure, interoperable communications through reliable, agile networks.

MAKING A DIFFERENCE

As a part of our commitment to help create economic opportunity and improve quality of life in the New York communities where we operate, L3Harris:

- > Donates over **17K employee hours** each year for a wide range of community activities including STEM education, the arts, family assistance and support of military and first responder organizations
- > Contributed more than **\$450K** of philanthropic support to organizations and educational institutions in 2025
