

L3HARRIS.COM

INDO-PACIFIC REGIONAL SUPPORT CENTRE

L3Harris excels as a prime defence contractor in Australia, providing integrated tech solutions for over four decades. Specializing in technology that connects and shapes operations: space, air, land, sea, cyber and first responders.

L3Harris' IPAC Regional Support Centre is the pivotal hub supporting the ADF, NZDF, regional military allies and first responders. It delivers end-to-end services that strengthen readiness, improve resilience and accelerate time to mission.

CORE CAPABILITIES

- > Vehicle integration and mission systems support — installation, integration, testing and sustainment for tactical communications, night fighting capabilities, battle management systems and emerging technologies.
- > In theatre supply chain resilience — local spare parts and inventory to keep platforms mission ready.
- > Local Maintenance, Repair and Overhaul (MRO) — swift turnaround for battlespace communications systems with in country repair and maintenance for foreign Controlled Cryptographic Items (CCI), Satellite Communications and Night Fighting Equipment (NFE).
- > OEM certified assistance — delivered by a skilled Australian workforce that ensures quality and compliance.

RSC FAST FACTS

-  **OEM certified MRO**
15 years high mission assurance
-  **25+ Years regional knowledge**, support ADF, NZDF, IPAC region
-  **80%** Defence veteran workforce
-  **International Partner**
Support U.S. DoW regional sustainment framework
-  **Proven Capability**
Equipped with multi-vault CCI handling capability
-  **Global Supply Chain**
Expand repair networks for warfighting domains
-  **Award-winning apprenticeship programme**

L3HARRIS®
FAST. FORWARD.

RSC OBJECTIVES

- > Timely in-theatre support of ADF, Five Eyes Nations, coalition forces and first responders.
- > Reduce Controlled Cryptographic Items (CCI) maintenance turnaround time by leveraging the proven and integrated CCI MRO capability in Brisbane, Australia. The RSC is positioned to service critical CCI from the APAC region, repaired locally, with the benefit of reduced turnaround time by six months in some use cases.
- > Mission assurance through leveraging the established MRO and improving the effectiveness and efficiency of MRO capabilities for rapid response and regeneration of readiness.
- > Strengthen regional partnerships by being an international industry partner, to the U.S. Defense Regional Sustainment Framework (RSF), a blueprint aimed at empowering a globally connected, distributed and resilient MRO ecosystem.
- > Strengthen Defence Industrial Capability through developing a more capable, resilient and competitive Australian MRO capability. Expand our domestic onshore collaborations with our small and medium enterprise (SME) supply chain and by engaging in joint workforce development programs and exercises to enhance interoperability in sustainment operations.
- > Serve as the Indo-Pacific's premier sovereign sustainment and integration hub, seamlessly combining MRO, engineering, vehicle integration and field service capabilities to deliver responsive, mission-ready support that enhances operational readiness for our sovereign and regional partners.
