DELIVERING PRECISION, SAFETY AND RELIABILITY IN MODERN MUNITIONS

Cincinnati, Ohio

L3Harris delivers advanced fuzing and ordnance solutions supporting U.S. and allied missions across air, land and sea. With more than 70 years of experience, L3Harris has a proven track record as a quality, on-time producer of superior products and systems.

Backed by a workforce with decades of experience and disciplined processes, L3Harris continues to scale to meet emerging global needs. We focus on a single mission: bringing defenders of freedom safely home to their families.

WHERE ENGINEERING MEETS MISSION READINESS

L3Harris combines engineering expertise with modern manufacturing to deliver safe, reliable and adaptable fuzing technologies. Our product portfolio includes Electronic Safe & Arm Fuzes (ESAF), Electronic Safe & Arm Devices (ESAD), Proximity and Height of Burst sensors, Ignition Safety Devices (ISD), Arming Generators, Fuze-Related Units (FZU), and build-to-print fuzing solutions supporting mission objectives from point detonation to deep penetration.

L3Harris engineering teams deliver end-to-end design, development, and test capabilities across analog and digital design, Field Programmable Gate Array (FPGA) and Application Specific Integrated Circuit (ASIC) development, radio frequency engineering, structural design including Finite Element Analysis (FEA), embedded real-time software, and custom test equipment. These efforts are supported by advanced validation and inspection capabilities, including HALT/HASS, centrifuge testing, X-ray inspection, and 3D Automated Optical Inspection (AOI), enabling the delivery of technologies that meet U.S. and Department of War standards.

L3Harris manufactures a electronic safe and arm device and proximity sensor that supports long range precision engagement and reliable performance in advanced strike platforms.

OVERVIEW

- Cincinnati, OH
- **Facility size:** 241,000 square feet on 105 acres
- **Throughput:** ~500,000 units/year
- **Certifications:** AS9100D, ISO 9001:2015
- **Capabilities:** low/medium/high-volume precision assembly, dual Surface Mount Technology (SMT) production lines, explosive loading and storage, on-site inspection and test

L3Harris facility in Cincinnati, Ohio.

L3HARRIS®
FAST. FORWARD.

SYSTEMS SHAPING MODERN DEFENSE

We support a wide range of U.S. military and international programs, demonstrating L3Harris as a trusted, on-time producer positioned for continued growth. The company's technologies are integrated into some of the most critical platforms across the joint force. Internationally, L3Harris also supports advanced defense programs and multiple L3Harris avionics and control systems.

Longstanding programs like the Multi-Option Fuze for Mortars (MOFM) have been in continuous production for 25 years, with more than six million fuzes delivered. As demand grows across diverse mission sets, L3Harris continues to strengthen its supply chain and invest in manufacturing capacity to meet future requirements.

The M762A1 and M767A1 are electronic-time fuzes for 105 mm and 155 mm artillery projectiles.

The M734A1 is the U.S. Army's newest-generation, NATO-standard Multi-Option Fuze for Mortars (MOFM).

IN THE COMMUNITY

- **Employees:** 670+
- **Sourced:** $193M spent across 369 suppliers in 2025
- **Volunteer hours:** ~10,000 (2025)
- **Local STEM/veteran initiatives:** Read Across America, American Corporate Partners, Yellow Ribbon Support Center, Disabled American Veterans, Honor Flight Tri-State, Wreaths Across America
